

# SCRATCH CODING UNPLUGGED

In Teams, use the Scratch block code at the bottom of the page to plan a path for your rover to find water on Mars. Your teacher will tell you which map to use. We will use your code in the game. Good Luck.

Level: \_\_\_\_\_

Your team can use each of these command codes as many times as you like. Don't forget to write a number to show how many squares you are moving forward or backward.
